Still shaking his head and muttering, the tavern keeper sprang ashore and mounted the bank, where his slouching figure quickly lost itself in the night.

Carrington took up his station on the flat roof of the cabin which filled the stern of the boat. He was remembering that day in the sandy Barony road—and during all the weeks and months that had intervened. Murrell working in secret, had moved steadily toward the fulfillment of his desires! Unquestionably he had been back of the attack on Norton, had inspired his subsequent murder, and the man's sinister and mysterious power had hever been suspected. Carrington knew that the horse theves and slave stealers were supposed to maintain a loosely knit association, he woodered if Murrell were not the moving spirit in some such organization.

"If I'd only pushed my quarrel with him?" he thought bitterly.

He heard Slosson's shuffling step in the distance in word or two when he spoke gruffly to some one, and a moment later he saw Betty and the boy, their forms darkly althouetted against the lighter sky as they moved along the top of the bank. Slosson, without any any superfluous gallantry, helped his captives down the stope and aboard the keel hoat, where he locked them in the cabin, the door of which fastened with a hasp and wooden peg.
"You're hose now, pardner!" he said, joining Carrington at the steering our.

he felt, not to give Slosson an opportunity to ask questions.

"T reckon you ain't needing me?" he said.
"Better go up in the bow and get some sleep," advised Carrington, and Slosson, nothing loath, clambered down from the roof of the cabin and stumbled forward. The ceaseless murmur of the rushing waters grew in the stillness as the keel boat drew nearer the hurrying yellow flood, and the beat of the Kentuckian's pulse quickened. Would he find the raft there? He glanced back over the way they had come. The dark ranks of the they had come. The dark ranks of the forest salled off the clearing, but across

The Keel Beat:

A few minutes later they had separated. George to hurry away in search of the horse, and Carrington to pass back along the shore until he gained a point opposite the clearing. He whisted shrilly three times, and after an interval of waiting heard the apland of oars and presently saw a shift steal out of the gloom.
